What is Bertha Grill? 🔥

Our live-fire charcoal grill is fired daily with real charcoal, reaching temperatures of 450-500°C. At this intense heat, the Maillard reaction sears the outer layer in just seconds, locking succulent juices inside whilst creating a perfectly crispy crust. The closed chamber infuses everything with rich charcoal smoke and wood-fired aroma. The result? Tender, juicy meat with an irresistible smoky char that can't be replicated in an oven.
